# From the Editor's Desk

"As you start to walk on the way, the way appears." – Rumi

June reminded us that CA journey isn't just about exams — it's about discovering who you are beyond them.

Some of the most valuable lessons come when we least expect them — through experiences that test us, push us out of our comfort zones, and help us grow in ways books never could.

June was filled with those moments. I still remember my first CA Students' Conference — sitting in the audience, unsure of my own place, watching friends perform, present, and volunteer with such confidence. That quiet spark of inspiration changed everything. A year later, I found myself participating, then connecting, and eventually stepping into roles

I never imagined — from Sports Secretary to Editor of this newsletter.

This year, that journey came full circle as I had the honour of helping organise and participate in the Mega CA Students' Conference — Parivridhhi: Sankalp Se Siddhi Tak. Over two days, we witnessed powerful student-led sessions on Taxation, Auditing, and AI — packed with insight, effort, and purpose.

The conference was elevated further by voices that connected beyond the technical — with CA Vijay Sarda touching hearts through raw honesty and CA Shivam Palan inspiring minds with his entrepreneurial perspective.

But what truly touched hearts was Jashn-e-Sham, our cultural night. Because behind every balance sheet-solving student is an artist — waiting for a moment to express. That evening, the stage belonged to storytellers, dancers, and dreamers. It reminded us that within every CA aspirant lies not just ambition, but emotion — not just focus, but flair.

The conference was a reminder that this journey is not just about becoming a Chartered Accountant — it's about becoming you.

Beyond the conference, June brought many milestones — a hands-on industrial visit to Oil India Limited, impactful World Environment Day activities, moments of mindfulness on Yoga Day, representation at the RRR National Conference, and a joyful celebration through our CA Day Movie Night.

Every initiative was a reflection of the same truth — that growth doesn't happen only in results. It happens in the courage to speak, the willingness to participate, and the choice to believe in yourself — even when you're unsure. To every student reading this — keep showing up. The moment you step in might just be the moment your story begins.

Warm Regards.
